

Revolutionary overreach boot designed for a **whole and safe** protection of the heel area. **Useful for every discipline**, and can be used on all surfaces (grass, sand, mud). The particular anatomic shape and protective material, guarantees a perfect fit on the horse's heel to give total protection.

Size:	<b>S - M - L</b>
Colour:	<span style="display: inline-block; width: 10px; height: 10px; background-color: black; margin-right: 5px;"></span> black <span style="display: inline-block; width: 10px; height: 10px; background-color: brown; margin-left: 10px; margin-right: 5px;"></span> brown
Product Code:	CSH

- **Anatomic shape:** the anatomically designed protection is in an elastic material that **adheres perfectly** to the horse's foot therefore eliminating rotation of the over-reach boot itself.
- **Extra-carbon protection on heel area**, areas at particular risk of injury and bruising.
- **Double point fastening:** Carbon Shield has two straps to ensure perfect fixing. It is initially positioned on the wall of the hoof with an **elastic strap featuring a quick release tip**. Then the second fixing is positioned on the pastern by a Velcro strap on the neoprene which guarantees maximum comfort - avoiding problems of excoriation due to bruising.

- **Quick-release tips:** tips in non-deformable FLEXTAN on stainless-steel hooks enable extremely quick hooking and release, even with just one hand. A constriction in the hooking holes ensures maximum fastening safety, preventing the possibility of accidental release during work or competition.

#### **Advice regarding use:**

Hooves have many variables in size and shape. The product is not suitable for hooves with particularly low heels.

**DO NOT USE HOOF GREASE BEFORE FITTING**
